

# The only wax worth taking your clothes off for!

## Lycon Waxes:

Hot wax - Perfect for short, stubborn hair growth and shrink wraps around the hairs at a low temperature. Great for sensitive skins and intimate waxing.

Strip wax - Spreads thinly and removes hair as short as 2mm with a super smooth finish and getting 38 half leg waxes out of 1kg tub!

Lycojet wax - Designed for hairs as little as 1mm short - to save you spending 10minutes with a pair of tweezers trying to remove those short stubborn hairs.

## 5 Step Guide to a Lycon Hot wax treatment:

1. Cleanse the skin with Lycotane Skin Cleanser
2. Apply Pre-Waxing Oil to the area
3. Wax the area
4. After waxing, cleanse the skin again with Lycotane Skin Cleanser
5. Apply your finishing product:
  - Tea Tree Perfect
  - Tea Tree Soothe
  - Perfect Finish
  - Soothing Cream
